Great results start with smart planning

You can visualize your next room renovation but have you really thought about everything that will go into it? With a little imagination, and a lot of thinking, you can create a room that's easy to love. And easier to live in. Once you realize what your needs are, you'll be able to think of creative ways to satisfy them.

STEP 1 STEP 2 STEP 3

Pre-Planning

- Plan the transformation of your space.
- Use our **Home Measurement Guide** to create a sketch of your current space.
- Browse our product lineup and make preliminary product selections.
- Formulate a budget and explore financing options (Affirm Financing).

Received your samples, what's next?

Sometimes, having multiple great options can be a bit confusing. Here are a few tips to guide you to making a decision.

See things in a different light

Put samples up against furniture, walls and flooring to see how they match. Try them out in different rooms to see how they look in varying light conditions.

Fresh eyes, fresh opinion

It's often helpful to step away and enter a room again, as if seeing the sample for the first time. Friends and neighbors are also a great way to get a second opinion. Or third.

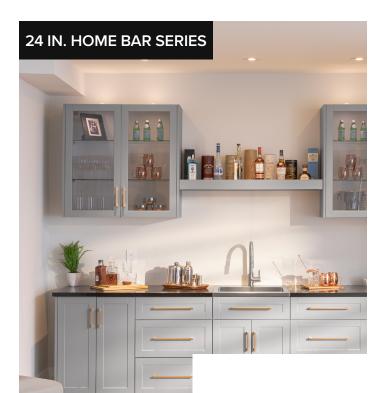

Crunch the numbers

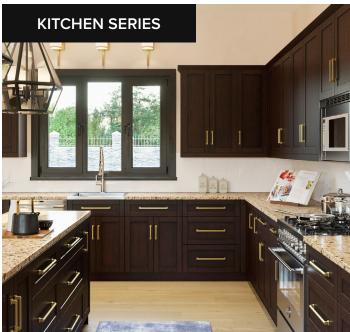

Once you've landed on your choices, it's important to calculate how much product you'll need. Our designers can help as part of your free consultation, to make sure you order the perfect amount to fit your space and your budget.

Make your plans a reality

Now comes the fun part. Connect with one of our award-winning NewAge design experts. Book your free appointment on our Design Services Page anytime.

Transform any space in your home

Our modular home cabinet designs give you the flexibility to create versatile, stylish storage that will let you make the most of any room.

Structural integrity for a long lifespan

Constructed from premium 304-grade stainless steel, our sinks are built for life-long use. They are all corrosion and heat-resistant, and easy to wipe clean after use. The EVA foam has sound dampening properties to ensure the evening clean-up is a peaceful affair.

Deep basin sink design

The deep basin bowl design features rounded corners to maximize basin space and offer ultimate convenience. There's ample space for food prep and washing up, while the gently sloped bottom channel prevents water pooling.

Premium materials, quality engineering

The ideal workstation is more than just a sink and a countertop. It's a multi-functional area that meets all your kitchen needs, from prepping and cooking, to serving and clean-up. Our sinks are cUPC certified and designed for both convenience and aesthetics.

Use our cabinetry or use your own

You can buy our sinks for your own build as well, don't have to use our cabinetry. Compatible with industry standard cabinets.

Beautiful aesthetic for your sink area

The arched cylindrical spout draws attention to the beautiful materials without overwhelming your design, and minimal edges make the faucet easy to keep clean. Our coiled spring and dropdown faucet designs provide versatile cleaning and spraying options, while the fixed faucet design offers a simple, beautiful aesthetic.

High quality and low maintenance design

Our mono lever faucet allows for precision temperature and flow adjustments with singlehanded operation. The 360 degree swivel spout and spray jet makes it easy to reach every corner, while keeping the water spray neatly in the sink.

Lead-free brass construction

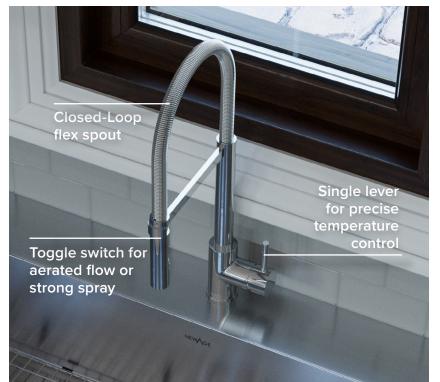

NewAge faucets feature a lead-free brass construction with a built-in ceramic disc valve for a tight seal that prevents leaks.

High spout design

The high spout makes it easy to wash and clean large pots and pans, while the 1.5qpl flow rate makes light work of stubborn stains.
